COBIT® 5 Assessor Certification Course

**About COBIT® 5.0**

Information is created, used, retained, disclosed and destroyed. Technology plays a key role in these actions and technology is becoming pervasive in all aspects of business and personal life.

Enterprises and their executives strive to maintain quality information to support business decisions, generate business value from IT-enabled investments, and achieve operational excellence through reliable and efficient application of technology.

COBIT® 5 provides a comprehensive framework that assists enterprises to achieve their goals and deliver value through effective governance and management of enterprise IT. It builds on more than 15 years of practical usage and application of COBIT by many enterprises and users from business, IT, risk, security and assurance communities.

**About the Programme**

**COBIT® 5 Assessor Certification Course** is an interactive, classroom based training helps the audience to how to perform a process capability assessment using assessor guide.

The COBIT 5 Assessor course provides a basis for assessing an enterprise’s process capabilities against the COBIT 5 Process Reference Model (PRM). Evidence-based to enable a reliable, consistent and repeatable way to assess IT process capabilities, this model helps IT leaders gain C-level and board member buy-in for change and improvement initiatives.

Assessment results provide a determination of process capability. They can be used for process improvement, delivering value to the business, measuring the achievement of current or projected business goals, benchmarking, consistent reporting and organizational compliance.

**Course format and duration**

The training is based on both theory and practice
- Session are included with real scenarios
- Practical exercises based on a case study
- Sample exam similar to certification exam

- **Course Duration**: 3 days including final exam
**Learning Outcomes**

By end of the course, the delegates will be able to understand

- How to perform a process capability assessment using the Assessor Guide: using COBIT 5
- How to apply the Process Assessment Model (The PAM) in performing a process capability assessment
  Specifically:
  - To use the Process Reference Model, in particular to be able to use the 37 processes outlined in the PRM
  - To apply and analyze the measurement model in assessing process capability levels
  - To apply and analyze the capability dimension using generic criteria outlined in the PAM
- How to identify and assess the roles and responsibilities in the process capability assessment process
- How to perform and assess the 7 steps outlined in the Assessor Guide Specifically:
  - Initiate a process assessment
  - Scope an assessment, using the tools provided and the PAM for the selection of the appropriate processes
  - Plan and brief the teams
  - Collect and validate the data
  - Do a process attribute rating
  - Report the findings of the assessment
  - How to use the self-assessment guide
